PROFESSIONAL SUMMARY

Front-End Engineer with 4+ years of professional experience building web applications with React, Next.js, and TypeScript. Works with design, product, and backend teams to deliver user interfaces, reusable components, and performance improvements. Experience spans public-facing websites, UI modernization, admin portals, and automated testing.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, SCSS/BEM, Material UI, ShadCN, Angular

UI and data: Figma, reusable components, Redux, Zustand, TanStack Query, REST APIs, GraphQL, Chart.js, ECharts

Testing and delivery: Jest, React Testing Library, Jasmine, Karma, GitHub Actions, CI/CD, pnpm, Vercel, AWS

PROFESSIONAL EXPERIENCE

Engineer | Samsung Electronics Philippines Corporation

May 2023 - Present

- Built reusable components, implemented performance optimizations and unit tests, and collaborated with design, product, and backend teams on internal portals and public websites.
- Contributed end-to-end to AI SDK Admin Portal and AI SDK Partner Portal using Next.js, TypeScript, Tailwind CSS, ShadCN, and Zustand.
- Helped migrate Samsung CheckOut Wallet to a revamped UI using React, Ant Design, and ECharts.
- Led a React-to-Next.js migration, reducing technical debt by approximately 40% and improving maintainability.
- Delivered SOSCON event websites for 2023, 2024, and 2025, with registration, attendance confirmation, and certificate generation.
- Established automated testing with 85%+ coverage using Jest and React Testing Library; improved GitHub Actions CI/CD to reduce deployment time by approximately 50%.
- Led the SOSHUB Angular 17-to-19 upgrade and refactoring that removed jQuery from the legacy implementation.

React.js Developer | Collabera Digital Philippines

Mar 2022 - Apr 2023

- Developed and maintained the Eye Locator application for Essilor in Brazil and China using React, Google Maps API, and CSS/BEM; supported dynamic configurations and optimized performance.
- Migrated analytics to GA4, added Google Tag Manager, and modernized the toolchain with pnpm.

Earlier Experience | University of Makati and Rimport Industries

IT operations and system administration | Jul 2016 - Jan 2022

SELECTED PROJECTS

- Core Bridge Solutions and Ayuda Lesiones: Built websites using Next.js, Tailwind CSS, Strapi CMS, and GraphQL; led two developers on Ayuda Lesiones.
- Spring of Virtue Integrated School: Built a Next.js landing page with SEO optimization.
- 8GIG Konstruct Inc.: Built a custom React showcase website using SCSS/BEM.
